Subject: Compatibility of mounting system FlatFix Fusion for flat roofs with SunPower modules

This document is to certificate that SunPower module SPR 2xx and SPR 3xx can be installed on “FlatFix Fusion system for flat roofs” mounting system with clamps on short side.

Sunpower allows to install SunPower modules on “FlatFix Fusion system for flat roofs” mounting system based on testing made on SunPower T10 mounting system.

Load on modules must never pass 2400 Pa (245 kg/m²) design strength.

SunPower is not responsible on ballast calculation and on structure design strength.
